## **Wednesday, June 23**

Departure by bus along **Le Chemin du Roy** towards Québec City

*The **Chemin du Roy** is the land-based counterpart of the St. Lawrence River. It paves the way of history in Québec along its entire length, nestled amid beautiful scenery and fascinating heritage sites. The chemin du Roy remains a living memorial to New France in the 21<sup>st</sup> Century. For a century and a half, the chemin du Roy would convey mail and travellers by chaise, stagecoach, mail coach and sleigh in winter. There would be up to 29 relay stations along the way. The trip could be made in two days at full gallop! Today Route 138 follows the old road, for the most part, from Saint-Augustin-de-Desmaures to Repentigny, passing through Trois-Rivières.*

Stop in Trois-Rivières

*Founded in 1634, Trois-Rivières just celebrated its 375<sup>th</sup> anniversary. Its historic district with its strong sense of the past and stately eighteenth-century architecture reveals its subtle charms and invites visitors to stroll along the Harbourfront Park or through the streets of an area steeped in history. Probably one of Québec's best kept secret*

Dinner along the way and evening check in at **Fairmont Le Château Frontenac** in Québec City

## Sunday, June 27

### **Half Day 1**      **Walking tour of Old Québec - *Involves quite a lot of walking.***

Perched atop Cap-Diamant, Old Québec tells of its 400 years of history through its architecture and narrow winding streets. Visitors marvel at its spectacular beauty, enhanced by the presence of the flowing St. Lawrence River. With French notes in the air, one feels literally transported into a European feel. [www.quebecregion.com](http://www.quebecregion.com)

Old Québec, its architecture and street names are reminiscent of venerable European cities. Let yourself be carried back in time and be the hero in an epic tale of discovery that unfolds before you. You will discover Upper Town as well as Lower Town, each portraying the story of the evolution of Québec City from the early days of the French colony till today.

Good taste and diversity are to be found in the shopping districts of the old city. It is a pleasure to walk along Petit-Champlain filled with artisans or rue Saint-Paul, famous for its antique shops and its art galleries. There is nothing like enjoying refreshments at an outdoor café after having found a delightful etching on rue du Trésor, a colourful artist alley.

Québec is the only city in North America to have conserved the major part of its defense system. The impressive rampart that circles Old Québec measures some 4.6 kilometers (2.9 mi). These fortifications bear witness to the evolution of Québec's defensive system from the 17th to the 19th centuries.

### **Half day 2**      **Bus tour of Old Québec and surroundings - *Involves some walking***

UNESCO proclaimed Québec City a World Heritage Treasure because of its unique architectural and historical value. Considered the cradle of French civilization in North America, Old Québec's narrow streets are filled with history. [www.quebecregion.com](http://www.quebecregion.com)

The tour includes a visit to the Plains of Abraham, an oasis for outdoor activities located on a historic site where a battle between the French and the British changed the course of history in North America in 1759. [www.ccbn-nbc.gc.ca/en/index.php](http://www.ccbn-nbc.gc.ca/en/index.php)

The tour also offers an opportunity to discover the charming countryside located a few minutes from downtown Québec City. Parc de la Chute Montmorency stands as a spectacular historical and natural site. This 83-meter waterfall is the parc's highlights and may be admired from a cable car, panoramic stairway and a suspension bridge right above this natural wonder. [www.sepaq.com/ct/pcm](http://www.sepaq.com/ct/pcm)

**Half day 3**      **Meet Great Chefs- *Involves quite a lot of walking.***

Quebec City could have relied on its reputation as a gourmet destination; over many decades, connoisseurs as well as laymen knew that the city, already famous for its architecture and its heritage, was a food mecca. But the world is getting smaller and one has to adjust to new realities, and this Quebec City has done very well. The key word being local flavours, you will meet with innovative chefs and share their experience through a fascinating journey. [www.parcoursgourmand.com](http://www.parcoursgourmand.com)

**Half day 4**      **Personal research**

Should you prefer to pursue personal research on other topics, we will gladly assist you in any manner you require.

**Monday, June 28**

Breakfast included at the hotel.

**Full Day 1**      **Île d'Orléans, Québec's luscious garden - *By bus. Involves a little bit of walking.***

Graced with a legendary beauty, Île d'Orléans unfolds its bucolic landscapes in the heart of the St. Lawrence River. Nestled between the Laurentians and the Appalachians, Île d'Orléans offers incredible views of the island's spectacular and undisturbed beauty. New France's first settlers established themselves on this fertile island, and the numerous old buildings still standing around the island attest to a history closely linked to the foundation of Québec City. Furthermore, the variety and the quality of the agricultural products found on this island contribute to Québec City's reputation as premier gastronomic destination. Meet the region's passionate farmers, taste their products, learn their secrets, and discover a wide variety of the region's products: ice cider, black currant liqueur, maple products,

duck, lamb, exotic vegetables and many more tasty treats.

## Full Day 2

**Parc national de la Jacques-Cartier and Native Cultures**  
*By bus. Involves quite a lot of walking, easy hiking and easy canoeing.*

Parc national de la Jacques-Cartier comprises a remarkable landscape of mountainous uplands fractured by steep valleys. The Jacques-Cartier Valley is a gorge over 550 meters (1,800 ft.) deep that forms a serene natural vista. A guide will take you canoeing on the river in a rabaskaw. You will then go hiking along the trails and explore caves in a forest of yellow birch. [www.sepaq.com/pq/jac](http://www.sepaq.com/pq/jac)

Following lunch, the afternoon will be dedicated to the discovery of the Huron-Wendat Nation. The visit to the Onhoüa-Chetek8e site, a reconstituted Native American village, is an opportunity to discover this nation's history, culture and way of life. The site will give you a glimpse of the Nation's lodging, legends, dances and artworks.  
[www.huron-wendat.qc.ca](http://www.huron-wendat.qc.ca)

The Huron-Wendat Nation is well-anchored in today's reality: the Hôtel-Musée Premières Nations (Hotel-museum First Nations) drew its architectural concept from the Huron-Wendat culture and its values: nature, spirituality, and mythology. This establishment combines a four-star hotel with a museum showcasing the know-how of the First Nations. [www.hotelpremieresnations.ca](http://www.hotelpremieresnations.ca)

## Full Day 3

**The Beaupré Coast - By bus. Involves quite a lot of walking.**

This excursion is especially designed for lovers of the great outdoors who wish to visit some of the most remarkable natural sites in Canada. Follow the footpaths and cross the suspension bridges over the Sainte-Anne Canyon, a deep ravine carved into the Canadian Shield. Take a gondola to the top of Mont Sainte-Anne, which affords an exceptional view of the surrounding area from a vantage point over 600 meters (2,000 ft.) above sea level. Go for a walk through the lowlands of the St. Lawrence River at Cap Tourmente, where you can watch birds or wildlife in their natural habitat.  
[www.cotedebeaupre.com](http://www.cotedebeaupre.com)

An excursion to the Beaupré Coast would not be complete without a stop at the The Sainte-Anne-de-Beaupré Shrine, a pilgrimage site that attracts over 1.5 million visitors each year. This cross-shaped Basilica of vast proportions was rebuilt in 1923. The architecture, the mosaics, the stained-glass windows are major points of interest.

[www.ssadb.qc.ca](http://www.ssadb.qc.ca)

**Full Day 4**      **Portneuf - *By bus. Involves quite a lot of walking, easy hiking and easy canoeing.***

Nature and history are prime attractions in the Portneuf region, which extends from the St. Lawrence River Valley to the Laurentian plateau. One of the best ways to discover Portneuf is to drive along "Chemin du Roy" (King's Road). Linking Montréal to Québec City since 1743, it was the first road suitable for vehicles ever built in New France. Gently following the St. Lawrence River, you will discover a series of typical villages where churches, presbyteries and centuries-old homes recall that this country benefits from the land and the forest.

Exploring the majestic sceneries through the numerous hiking trails of La Vallée Bras-du-Nord or canoeing down the peaceful river at the bottom of the valley will leave a lasting impression on those who choose this tour. It is quite amazing to discover such pristine nature, almost like wildlife, so close to a major cultural centre.
